The President brought to the notice of the Council an article in the Sampadabhyudaya of the 29th May 1925, containing misstatements regarding a bill for metal collected on the Karohatty Road, which was before the Managing Committee. The Municipal Enginneer's memo of the same date asking that action be taken in respect of the damaging remarks made on his Department in the said article and requesting permission to proceed against the Editor of the paper, was also read.

The discussions made it clear that the bill had been deferred for inspection by the Managing Committee, on 26th May 1925. Some of the members who tried to inspect the same evening could not reach the work spot; but the following morning, the Chairman and some members saw the work and were satisfied with the correctness of the bill which was therefore to come before the next meeting of the Committee.

There was a difference of opinion whether the elucidation of these facts during the discussion was sufficient or whether a formal resolution was necessary to place the facts on record and to remove the misapprehensions that might have been created by the publication of the article in question.

Votes were taken with the following result :—

An amendment was proposed by Mr A. Krishna Rao, and seconded by Mr. P. S. Ramaswami Iyengar, to change "false" into "incorrect" and omit the words "and the Managing Committee."

This was put to vote and lost.

A second amendment was proposed by Mr. B. K. Ramakrishniah and seconded by Rev. E. S. Edwards to omit the words from "contains" to "Managing Committee".

This was also lost.
